NUMBER OF EMPLOYEES

STATEMENT BY FIRM The firm of Thayer Engineering Company, Inc. was established in 1982 by Elliot B. Thayer to provide professional services in the fields of civil engineering, land surveying and planning to clients consisting of individuals, business, industry and government (municipal, regional, state and federal). Since that time, the firm has been engaged in many engineering and surveying projects which have been varied, interesting and challenging. While the majority of projects have been within a fifty mile radius of Augusta, Maine, projects have also been accomplished throughout the State of Maine, New Hampshire and Canada.
